

WILL WEBSTER

wwebste@iu.edu | (317) 999-5499 | www.linkedin.com/in/willwebster07

EDUCATION

Indiana University, Kelley School of Business – Bloomington, IN

May 2027

Master of Science in Information Systems

- *Honors:* MSIS Fellowship; Graduate Assistantship

Indiana University, Luddy School of Informatics, Computing, & Engineering – Bloomington, IN

May 2026

Bachelor of Science in Informatics; Minor: Web Design; Policy Analytics

GPA: 3.97/4.00

- *Honors:* Founders Scholar; Dean's List (8 semesters)
- *Web Design Teaching Assistant:* Supported 50+ students through weekly office hours and feedback on HTML, CSS, and JavaScript assignments

EXPERIENCE

Crowe LLP – Indianapolis, IN

May 2026 – August 2026

Dynamics 365 Implementation Intern

- Supported implementation of Crowe's Metals Accelerator for Microsoft Dynamics 365 by authoring 80+ functional test cases, process flow diagrams, Functional Design Documents, and solution documentation
- Executed functional testing across client-facing Dynamics 365 environments, validating customizations and resolving six defects with developers through Azure DevOps to accelerate UAT readiness
- Built a Power Automate solution using D365 Dataverse and Claude Opus 5 to automate production order monitoring and stakeholder notifications, cutting manual status-check time and improving reporting visibility
- Led an end-to-end demonstration to internal leadership covering Sales, Purchasing, Production, Finance, and Warehouse Management, showcasing D365 system readiness

Wesleyan Investment Foundation – Fishers, IN

May 2025 – August 2025

IT & Cybersecurity Intern

- Led an intern team in designing, developing, and deploying an AI-integrated SharePoint knowledge base with custom SPFx web parts (JavaScript/TypeScript), reducing search time by 40% for employees
- Refactored loan and investment application forms to support international address validation and formatting standards, improving global accessibility and reducing data entry errors

ACADEMIC & PERSONAL PROJECTS

AI Resume Analysis Application (Personal Project)

June 2025 – August 2025

- Built and deployed a full-stack Flask application using GPT-3.5 and custom prompt engineering to evaluate resumes against job descriptions, improving AI-generated match scores by 25% after targeted resume revisions
- Designed an intuitive UI enabling users to upload resumes, input job descriptions, and instantly visualize their AI-generated match score, making the tool accessible to non-technical users

Property Management Information System

January 2025 – May 2025

- Collaborated on a team of 4 to develop a full-stack property management information system using SQL and PHP to manage property listings, tenant screening, lease transactions, and reporting workflows
- Designed and implemented a relational database supporting property, tenant, and lease data, improving data organization and enabling dynamic reporting across core business processes

TECHNICAL

- *Enterprise Systems:* Dynamics 365 Finance & Operations, Power Automate, Power BI, SharePoint (SPFx)
- *Programming:* Python, JavaScript, TypeScript, SQL, HTML, CSS
- *Development Tools:* Azure DevOps, Jira, Git, Visio, UML, Excel, Figma

ADDITIONAL

BODYBUILDING/COACHING

- Placed 3rd in Classic Physique
- Trained 3 clients in nutrition and weight training
